★★★★★

Quality 1st.Roofing, Mr. Fuller was very professional, explaining everything and the cost was reasonable. The crew did an excellent job replacing my old roof. It only took 3 days. The first day a crew of 6 showed up and removed the old roof. They were all professional and knew their job. The next day was the install using quality material. The third day was paint touch up, magnetic nail and staple sweep. I would highly recommend this company.

They did a great job fixing a complicated leak in my roof for a very reasonable price. The work was done in a timely and professional manner!

We had the cabin winterized 10-27-14 and will not go back until spring, so have not seen what has beendone, so many of the questions cannot be answered until we open up again. Appreciated the quick response when we realized there was a problem.

Worked me into their schedule when I needed service quickly and charged me a fair price for the work done.

This was a Horrible experience! Rude roofers, poor workmanship (several problems had to be repaired including 2 leaks after the first good rain), and after we called to have them fixed and 3 no shows and no calls to explain why, it was over a month before someone finally came! The only thing acceptable is the quality of the product, but who knows - It's only been a year!

I would not recommend this company. It took two months to finish a 3 day job and the quality of workmanship was not there. There were too many scratches on the metal roof panels.

This is a good, dependable company that communicates very well, appears to do quality work, is commendably responsive, and charges a fair price for the work done. I will most definitely use them when needed again, and would recommend them to others.
