★★★★★

DreamMaker was extremely professional throughout the process of major remodeling of two bathrooms. They came when promised; they responded with their detailed proposals; they provided assistance in selecting products and explained the benefits of options; and very importantly, they provided dates for the remodeling and assured us that the remodeling could be done while we were out of town for several weeks. It was all completed as promised, and the final product was even better than we expected.

The designer at Dream Maker - Veronica Majors has a really good eye for combing the existing elements with thenew ones. Her advice was spot on. Ron Faber (owner) answered all our concerns before and during. Our master bath turned out very nicely.

★★★★★

It was wonderful working with DreamMaker of Bellingham in every way. The process went smoothly every step of the way and there were no surprises from design to finish. Going into any remodeling project you kind of expect it to take longer than they say and cost more but not with DreamMaker! They started when they said they would and were done when they told us they would be and they were here almost every day! There were no surprises on cost either. We agreed on the price before they started and it did not change. Plus we loved all of the staff. They were a pleasure to work with. They are all very good at what they do!

Ron and his crew were very professional in their work ethics. The crew knew their skills well and stayed on task until completion of the bathroom walk-in shower project was completed. The results are beautiful...
