★★★★★

I was not aware of the number of my original wooden frames/edging that were broken until crew wrapped up. The frames were hidden by blinds. The crew should have replaced the cracked frames or at least told me about them rather than using nails and caulk to hide the breaks. Therefore, I cannot recommend Forde Windows to a friend.

★★★★★

They are very good, but they are very expensive. Sometimes I did not hear back from them in a timely manner.

★★★★★

Forde Windows and Remodeling have done Roof, Windows, Two Bathrooms, a kitchen, Living Room and some smaller projects for us. We are very happy with the work and as far as value for money and professionalism are concerned they are 5 star.

★★★★★

We used Forde Windows to add a room over some open loft space and their work made the addition appear seamless and their subcontractors were top notch. Everyday our home was kept in more than livable condition and clean. Very happy with the results.

★★★★★

Forde did a very nice job, from recommendation and selection of product, through installation, and in making corrections on manufacturer errors. We are pleased with our selection of them for this work.
