This is an excellent team of Professionals! Mr. Greg Miller and his skilled craftsmen did a lovely job remodeling and updating my elderly parents' main bath (totally gutted) replacing plumbing, structural things and electrical as well. Greg and staff met with us on my parents' schedule, always respected their privacy and were always punctual, good communicators and informative of issues and accepting of workable changes. They always left the work space safe, clean, tidy, protecting carpets and vacuuming before leaving. Great help in choosing tile accessible grab bars and fixtures, Paint colors. Beautiful project!

They were excellent, and never in a hurry. It was exceptional. When the county inspectors came over to examine the carport, they praised it and said houses are not as sturdy as this carport was. They were really impressed with the craftsmanship and so is my husband who as been in construction for 30 years. They were very pleasant and very cordial. If I am recommending them to my neighbors, you know they are good.

Greg is wonderful to work with - very flexible, professional and an all around nice guy! He and his team went above & beyond when the tile I selected from a sample, didn't quite match what we received. They went to multiple stores and looked through hundreds of tiles to get the best match. When I wasn't sure what I really wanted, they made great suggestions. Tony, who did most of the work was fast, efficient and kept the workplace neat and clean.

Having had very positive experiences with Greg Miller and his team, I asked him to hang artwork at my firm's new office space. He responded promptly and shortly thereafter, we had professionally hung artwork throughout our office. It looks great and Miller Remodeling will be my first call for any such additional projects.

Greg and his team were absolutely terrific to work with. He was responsive to all of our questions and requests and worked hard to make our vision for our house an even better reality than we had dreamed. The team on site on a day-to-day basis was friendly and respectful, and we always felt comfortable with them in our house while we were at work. (As a side note, my 2-year-old loved Mr. Jeff!)

REVIEW

Gregg O.
Round Hill, VA
Mar 22, 2017

I had dreaded doing the project. I worked with Greg Miller and it was the most stressless job and construction I have ever been through. I was pleased with the ease and comfort I had during it. I was able to stay living in the home during the construction. I felt comfortable leaving the house for a week vacation. I left Greg and his crew with a key to the property. I had no worries leaving Greg in charge knowing he would let us know and tell us what he did. If I ever have another project I would call Greg back to do it. He was very detail oriented and knowledgeable. I didn't know about certain things in the cabinetry and hood range. I did not want the microwave about the stove and he came up with the plan of where to put it. I wanted bright lights on the hood of the stove in the back and he designed it all for me. He told me about a dual fuel range I could look at. He was very helpful and I am super pleased.

Miller Remodeling Design/Build wildly exceeded our expectations. They were thorough and a pleasure to work with.

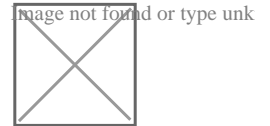

REVIEW

Doris H.
Dumfries, VA
Dec 20, 2016

I have had many remodeling staff in my home prior to coming in contact with Miller Remodeling. The jobs done prior to Miller remodeling had many deficits (did a substandard job. did not offer suggestions that would work with what I wanted, did not clean up after their job, left things undone or just were careless about the tasks and caused damage to other parts of my home. However, Miller remodeling has a very high standard for not only quality of service, but with how they treat your home. Mr. Miller sets a high standard for all that are employed by him and will not accept any work that is completed by his company to anything less than perfect or he will have his team redo the job at no cost to me. That is very much appreciated. I will only use this company in the future.
