We had a somewhat of a complicated situation that they help us sort out. We had some installation questions that took little more time to figure out, but in the end it turned out great.

I could not be happier with my solar system from Same Sun. From the first visit, right to the final walk-through with the owners of the company, they were professional, neat, and thorough. The crew was great and the attention to detail excellent. I am a retired contractor and picky, and they exceeded all my expectations.

One of the reasons I chose Same Sun (other than them being comparable) was that they support initiatives in our state. 350 Vermont has received assistance in their efforts. I like that and dig that they support 350. I like to see them give back to the community which means better energy not only for me, but for my grandchildren.

We are so glad we chose Same Sun of VT over other solar companies we met with. Every single member of the team we worked with was fantastic. Our array has been up and running for a month and it is producing right on par to what we anticipated. Very excited to see the credit on our electric bill each month to work towards usage during our peak heating season. You guys are the best!!

★★★★★

Installation of our solar array by Same Sun VT was one of the best construction experiences I have had. We agreed on the system, the site team made their measurements, and we were given a proposed schedule. As we planned to be out of town, we had some concern, but were assured that would not pose issues. On our return, the system was installed, running, and there were NO TRACES of dirt, sawdust, conduit pieces, loose wires, insulation etc ANYWHERE on the property, roof, or down cellar. A follow up visit by the team was pleasant, informative, and friendly. This was a superior group. I am very happy with the system.

I looked at three companies before choosing Same Sun. Besides being the most cost effective, Same Sun spent a lot of time answering my questions and earning my business (as they say). The project manager and crew that was sent were professional, accommodating and fun to work with.

I could not speak higher of a business, its people, and its product. Superb in all aspects, as the five stars reveal. Make a template of SameSun, send it out into the world and hope for copywrite infringement on a mass scale: the world will once again come into balance.
