We are extremely satisfied with the windows that were installed in our home. From the initial consultation to the installation, the staff and installers at A.B.E. were very professional and answered any questions my wife and I had. I would recommend A.B.E. to anyone who is thinking about getting windows installed in their home.

The entire staff of A.B.E. Doors & Windows has dealt professionally with us. The installation crew took extra measures in caring for our home while installing our doors and window. I had no concerns about leaving my home for a few hours during the installation process. A.B.E. Doors & Windows is a positive example of "You get what you pay for" and I would recommend them to my family and friends.

Purchased a front door and storm door and was told that install would be in 8 weeks. It ended up being about 11. That was a long time to wait, and I never even got a phone call to let me know they were falling behind with their schedule. The door itself is beautiful, though the color is so much darker than I anticipated. I needed it to match my current hardwood floors and trim, and it isn't even close. I had to restrain the trim around the door to match and while it looks a lot better it's still not what I originally wanted and for the price, this doesn't sit well with me. In hindsight, I wish the salesman, who was at my home when I ordered the door, had taken the time to give his input with the color. I don't want to place all the blame on him, but as a professional, and knowing that this was such a large investment, and his knowledge of what these colors actually end up looking like (the color chip is very small), he should have at least given an opinion because now I have a very expensive door that I don't absolutely love. Installation seemed to go smoothly, though I wasn't watching every moment. He did a tremendous job, despite the fact it was absolutely freezing outside that day. I have an almost 100 year old home with a brand new door and he managed to make it look like it was there from day one with the way he did the trim work and fitting it all together just beautifully.

I am truly satisfied with my purchase (2 doors) from the meeting with Rich (salesman), the two installers, and the product itself. I most certainly would recommend A.B.E. Doors & Windows to anyone I know. Wish I replaced the doors sooner, and am very sorry I didn't know about the company when I had windows installed.

Nov 18, 2016

I had a storm door put on my laundry room on the north side of the house to help with the cold air and wind that hits that area all winter. The installer did a beautiful job. Also had a custom made door for the crawlspace installed and that was also done to perfection. No more worries about leaks or finding water in that crawlspace. ABE was recommended to me by a neighbor who had also had a new crawlspace door put on by them and I was glad that she told me about such a reputable group to deal with. I will be giving the same recommendation to anyone I know that could use their services. And I won't hesitate to call on them in the future for any of my door and window needs.

Hellertown, PA  
Oct 06, 2016

Jim and Chris arrived on short notice to install 2 garage doors. They were very understanding that I was still moving stuff out of their way. They got right to work around my efforts and finished 2 removals and new installations in a very reasonable amount of time. While I was finishing the paperwork I spied Jim with a bottle of cleaner wiping down the doors in case of fingerprints. They even swept up chips in the driveway even though it was lightly raining. VERY pleased with the whole project from first measuring visit to final install.

REVIEW

Matt S.  
Bethlehem, PA  
Mar 24, 2016

The windows and doors are nice and installed properly. They were about two weeks overdue on finishing the installation but rectified things decently. Very disappointed in the clean up. Paint chips and debris left all over the place. I do not see how they claim to be lead safe when they left lead paint chips and debris all over the sills and outside my yard. They even left shards of glass in my yard. I asked the guy to clean up and he was very nice but didnt clean up very much. The two individuals who came later to finish installing the last window two weeks late, did actually keep things very clean and cleaned up very well. But the 15 other windows and doors were not cleaned up after. If you care about lead safe practices that you are being charged for then do not bother with them. And I was not going so say anything but they keep pestering me with letters, emails, and phone calls trying to get me to take a survey so here it is.

Feb 24, 2016

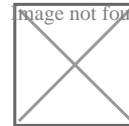

We had them install a new front door for us. We've dealt with ABE Doors several times in the past (new garage door, new bedroom window, they fixed several windows that would not stay up) and we were always happy with the results. The sales people and the installers were always friendly, professional and courteous. They also cleaned up so that there was nothing for us to do after they left.
