I wouldn't use them again and I wasn't happy. The first roof I got from them didn't last for was years, and I wouldn't recommend them to no one. They left the job incomplete. I also had to clean up nails, and shingles myself. And they left debris on the side of my garage. The garage was left unfinished as well. I should have taken my time to find someone else for the work.

My roof looks great, nails were left behind.but they came back to clean them up.very disappointed appon final inspection. Inspector says I need to rebuild my brick chimney. That was supposed to be cought before they replaced my roof. Now I have to pay another 2,500 for that. I already had to refinance my home for the roof. Now I have to take out a second mortgage to pay for my Chimney. Not very professional in my opinion.

I purchased the Rolls Royce of roofs and it is a very solid investment. Workmanship is immaculate and it is guaranteed for the life of the house. Crew was friendly and got the job done in a day.

I went with Able roofing because I liked the quality of the roofing material (lifetime guarantee) and the 12 months same as cash financing. Able was not the lowest bid we received actually they were the highest, however, they did honor their price match guarantee after some back and forth. I was pleased the job was done in 1 day as promised. The crew was courteous and a member of the crew met us as we arrived home and gave us an update on the project and an estimated time of completion. Overall I am very satisfied with the job and would recommend Able Roofing to my family and friends.

The name "Mr. Roof" was an initial turn off for me. Sounds like some countrywide storm chasing company instead of a local concern I would normally like to do business with. I decided to get a bid from them anyway. Who knows maybe I could use their low ball price to negotiate with other contractors. To my complete surprise, Mr. Roof was the most informed, competent company I talked to providing information none of the other contractors even came close to communicating with me. Victor Houston pointed out the important considerations when replacing a roof and expertly assisted me make a successful claim with my insurance company. Mr. Roof was not the cheapest, not the most expensive either, and I chose them because I truly felt I was going to get the best value and a high quality installation. I was not disappointed. On installation day, what must be the best roofing crew in the nation completed the removal and replacement of my roof in a single day. I own a large ranch home with double the roof area of most homes and they knocked it out with amazing speed and fantastic workmanship from what I can tell. My roof was installed three months ago and it has taken me this long to write a review. I never write reviews but I am glad to give this testimonial because I think Mr. Roof does it right, is a good company trying its hardest to provide honest quality and is certainly an organization I would recommend to friends and family.
