I had been putting off replacing my windows for 3 years dreading the high pitch sales, misleading quotes and now knowing who would do the actual install. When I decided I couldn't wait any longer I did my research again and what impressed me about Rite Window was the reviews. With only a few negatives what pleasantly surprised me was that everyone of those were answered by the owner even if it included an apology. From the salesperson coming out to the final install everything went perfectly. Each window looks and works great with not a drop of air coming in. Only the wait to get the install ( 8 weeks) was a negative which isn't even that because they are busy doing something right. However I can say that the time they quoted me for the install was right on the money. Rite Window did a "right on" job. Thank you all for the great job.

These guys were great. Here right on time, done sooner than planned and you would never know that workmen had been replacing on the windows on the 3rd floor. The salesman was knowledgeable and helpful, someone that gave me the straight story. Would definitely recommend them to others.

Entire process from initial consultation to installation was seamless and completed in reasonable timeframe. On date of installation, installer (Andrew) arrived on time and was very knowledgeable in answering my questions regarding the installation and the process. The installation was completed from the outside of the house resulting in the trim work around the window to be removed then replaced. Once windows were installed, he ensured everything around window looked as it did prior to install. Additionally, work area was completely clean both inside and outside house. Very satisfied.

The initial estimate was done quickly, with no hesitation and the usual " we'll get back to you with a final estimate" nonsense. The workers were professional, efficient, and left a spotlessly clean yard and home, I' m very pleased with this company.

My new Rite Windows are easy to operate, to be able to clean the outside is so nice. The safety feature, that you can leave the windows open in a locked position is fantastic. The installer was a pleasure to talk to, cleaned up areas, cleaner than they were. A great experience, Thank you. Frederick Souza

Very positive experience with Rite Window. A couple of mix-ups re: timing of initial appointment for estimate but once everything was underway communication was very good, all promises were kept and the windows were ready sooner than expected. 10 windows were installed in about 1/2 day.

Would never recommend! We had to repeatedly interrupt our busy schedule to accommodate the return visits due to their inability to complete it correctly the first time. Lack of respect for our time as they were always late as well. The communication is horrible. The only good thing about the entire company was our salesman.

Comment from Rite Window

We apologize. We have no excuse. Our goal on every job is to get it right the first time, yet sometimes we come short and a job requires multiple visits. Combine this with our scheduling problems on the follow-up and we managed to make a bad situation even worse, (see "when it rains it pours"). Of course we can't ask for your recommendation, but we're hoping for your forgiveness, because we're truly sorry for the aggravation we caused.
